How to Become a Super Affiliate Marketer Easy Profit Plan Overview – With Marcus Campbell

Before you go through this simple six step process, I recommend you start a [hub site](#). This is where everything is going to be. You can install trackers to see everything at a glance, have your links, and test out plugins. This is extremely helpful for both beginners and seasoned affiliate marketers.

As we go through the six steps to success, keep this [hub site](#) in the back of your mind.

Now, let's get into how the affiliate marketing industry works.

1. [Find a niche](#). No matter where you are in the process, this is very important! Your niche market is your group of people hanging around on the internet who we want to market to. You need to find your keywords.

For finding our niche, we use [Google Keyword Planner](#).

2. [Find profit centers](#). When you find your niche, you have to find out if it's profitable.

For this, use Offer Vault. This lets us search for different offers and see what they pay.

3. [Traffic](#). Find your traffic source. You need to see where the people are.
4. [Set up domain](#). This is different from the hub site. Once you find your traffic source, choose your domain name based on your traffic source. Your domain name should be simple, but still have the exact keywords that people are searching for.
5. [Get content and set up a layout](#). This will include our affiliate links and mailing list.

6. **Run a test.** This will show you if you will make money. If you've set up your hub site, affiliates will give you coupons for your traffic.

Your test will let you see how many people opted in, how many clicked links, how many left, how many interacted, and what you made.

This is an overview to the [Simple Sites course](#). We'll show you how to get content, how to get plugins, how to help you build your list, tracking, how to run your test, and help you make money.

We'll also show you how to get accepted to affiliate networks, which affiliate networks to use, how structure your links, your banners, and how to get people to do the things that make you money.

This is your simple six step process to success.
